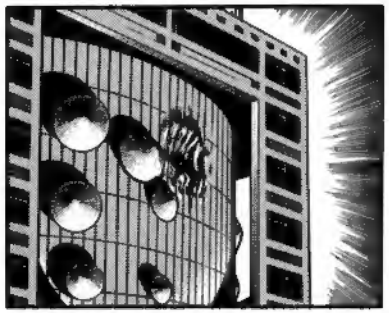
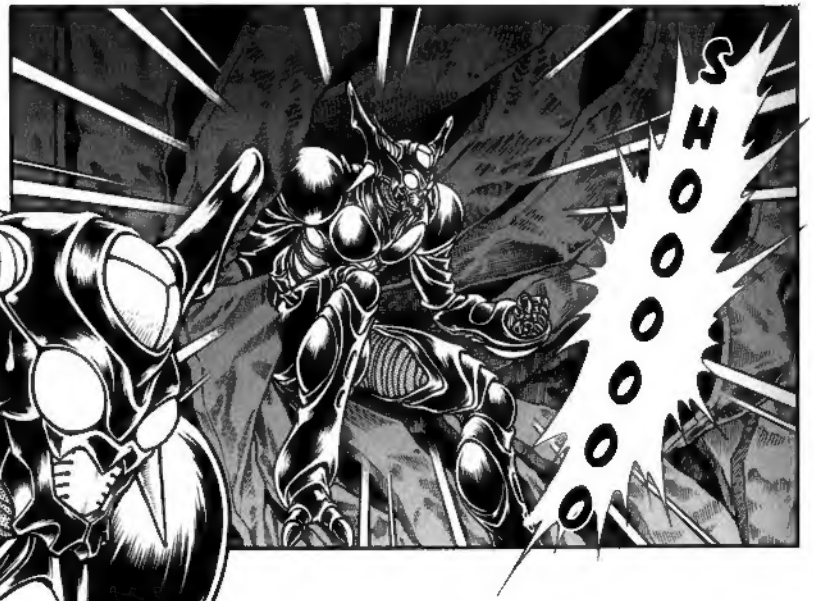
Hold it for a moment Tetsuro!
You can't possibly see Sho and the others from here!
The city is full of Zoanoids!
Tonight ...
What if someone sees you?
Natsuki ...
You too, Mizuki...
It's dangerous here...

It's frustrating, but we can't do anything.
We can only believe in them to return safely....
Tetsuro ...
At a crucial time like this I can't do anything for Sho, even now....
Natsuki is right...
Surely.
Sho will return.
Don't worry, brother
Mizuki....
It seems that every Zoanoid is heading towards Shinjuku.
It seems that this ruckus isn't only in Setagaya.
Aah...
....that's why you can't be that reckless, they might catch us!
Won't we be in the way of Sho?
There has to be a relation to Sho and the others who went to Cloud Gate.
Even if he is a Guyver with that many Zoanoids he'll be outnum-bered....
I know but....
I know!!

Shinjuku





SHOOOOOOO

He made me
a promise....

Sho....

SFX: Gugu...
It's my fault again....

I will kill that bastard Kabral!!

Sho could not match him.
Having absorbed thousands of Zoanoids, even with the Gigantic...
SFX: Gyahahahahahaha
If you take on this Dra-glord Kabral,
It's only natural that the Gigantic, is the same as a child!!
See that!?

Even with martial law in effect, a number of humans will have witnessed this scene.
With that giant form and with this situation...

They were unaware they could be controlled by a Zoalord like this as a disposable tool!
Those who wished to be candidates for being "Processed" were tricked!
To be able to live in a world ruled by Cronos.. they chose the path to be a Zoanoid for the sake of their families..
SFX. Go
Draglord Kabral..
No ..
I won't let you get away with this any longer!
SFX: Fuii

He "absorbed" all the other Zoanoids on the surface!!

I can copy the form from that genetic information .
By absorption of an organism's body at the cellular level,
For the Guyver there is the 'Control Metal' ..
For Guyvers and Zoanoids. .
For the Zoalord there is the "Zoa Crystal'
It cannot be done
Protecting them.
"Controlling" their cells...

"Stealth Screen" Ability huh .
When my body was controlled he absorbed a lot of strange Zoanoids.
That bastard Kabral
To use my "Fusion Predation abilfty"
Because of that, you won't notice that I am this close. .

SFX. Bikkikiki
SFX: B'ki
Uh . !?
SFX Gu gu gu
I will turn this place into hell itself!

I will scorch the region of Shinjuku!

On top of that, this Draglord Kabral ..
My body structure's "constitution' was tampered with
The act turned me into "Stone"
At the battle of Akarigaoka", I was captured by Kabral.
has a "Fusion Assimilaton".
Instead of an ability like my "Fusion Predation" ..
but...
If I'm not careful when I "Fuse", I might be the one who gets absorbed!

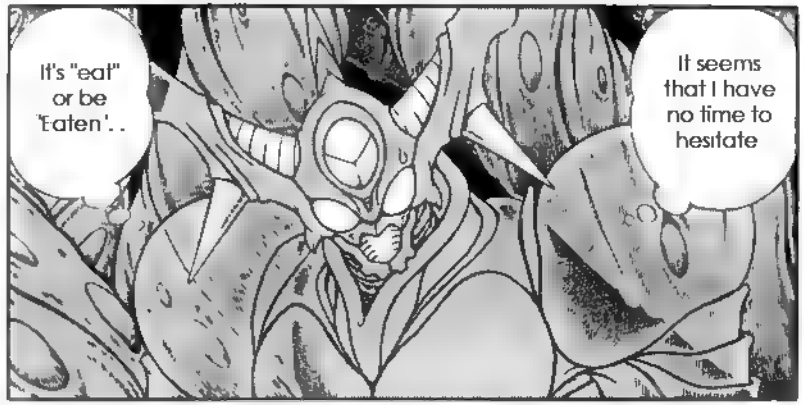
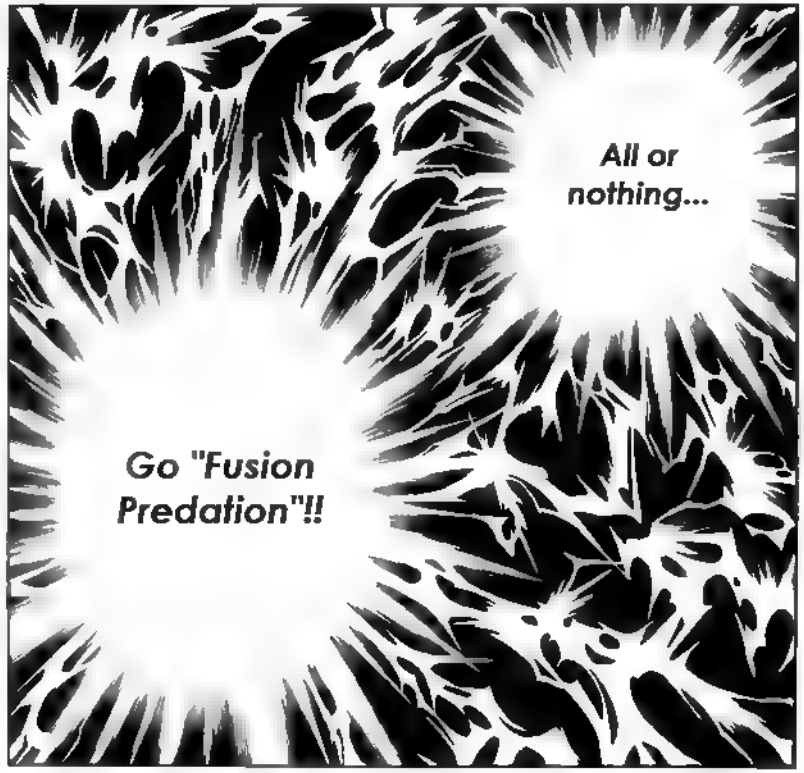
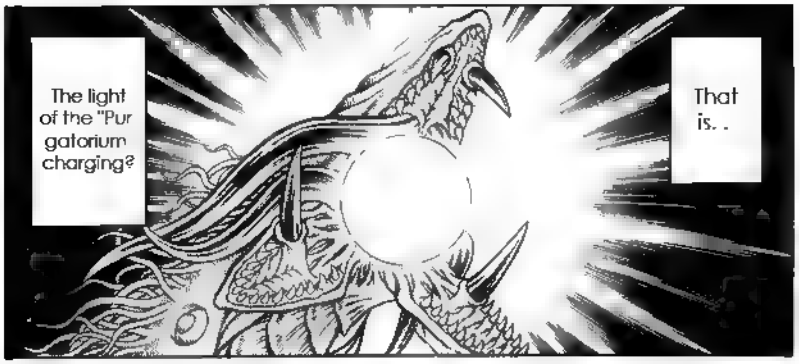
In the Gap of Heaven and Earth



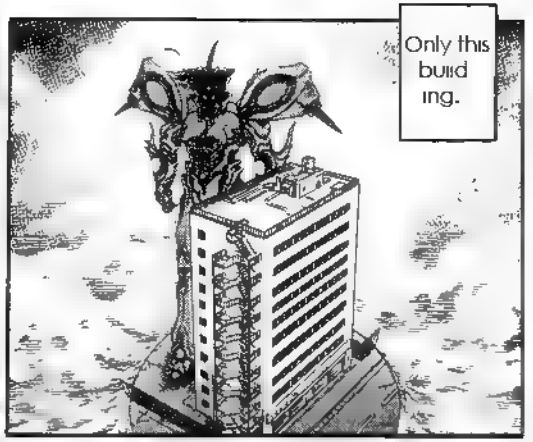




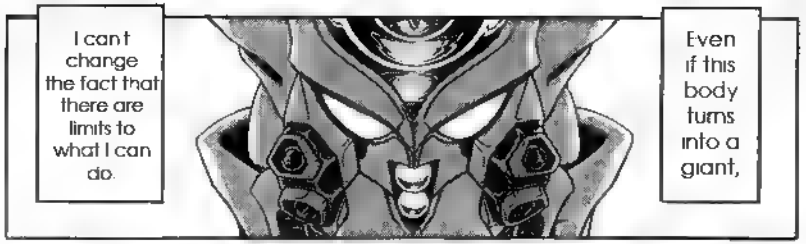
The light of the "Pur gatorium charging?
That is. .

a "Giga Smasher"!?
It's different from before as I can feel arger amount of energy ..
This is like .

I could only protect these people



Only this build ing.



I can t change the fact that there are limits to what I can do.
Even if this body turns into a giant,

SFX Ha

What is that light. . ?

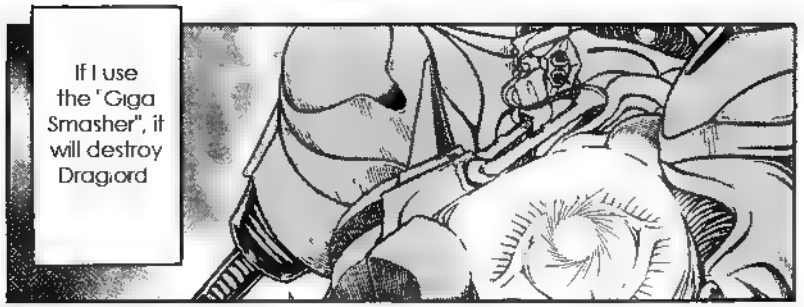
Hahahaha....
Guyver Advocacy

This is it .
Huh ..
?
Guyver Gigantic?

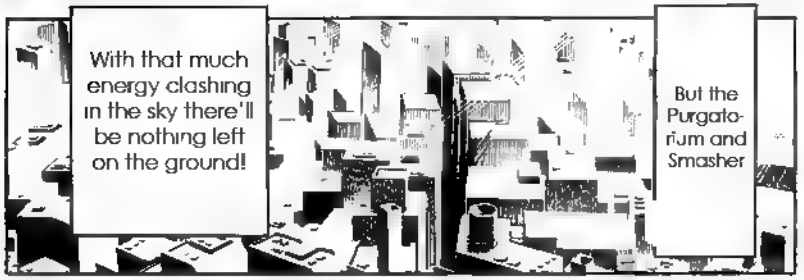
It will turn the Shinjuku region into a giant blast furnace!
"Wales Purgatorium" is using the energy of thousands of Zoanoids...
Will you shoot with the "Giga Smasher"?
Well then, what now Gigantic?
That is, if you can shoot it...!!

Guyver Advocacy

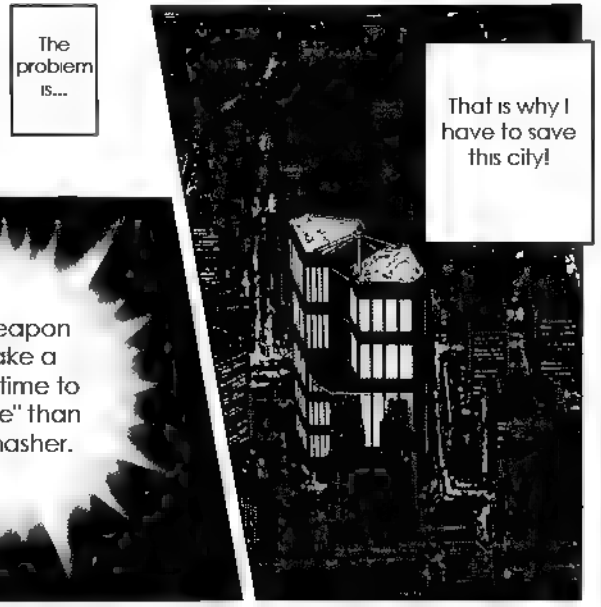
Dammit, please make it on time!!



If I use the "Giga Smasher", it will destroy Dragoord

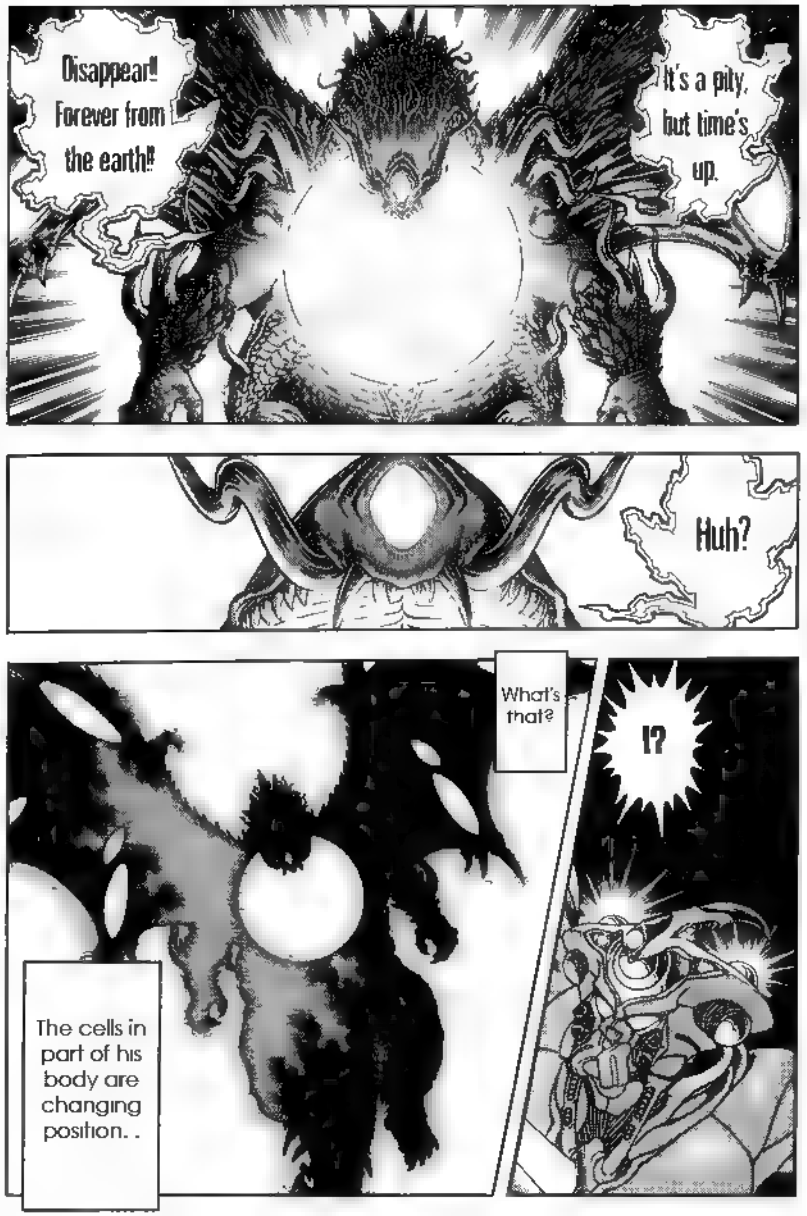


With that much energy clashing in the sky there'll be nothing left on the ground!
But the Purgatorium and Smasher



The problem is...
That is why I have to save this city!
This weapon will take a longer time to "Charge" than the Smasher.

Aptom..!?
Could it be.
I can't shoot the Purgatorium this way!!
What is the matter?
Half of my body won't do as I say!?
SFX: Gugugu
Hahaha..
My right hand is..?



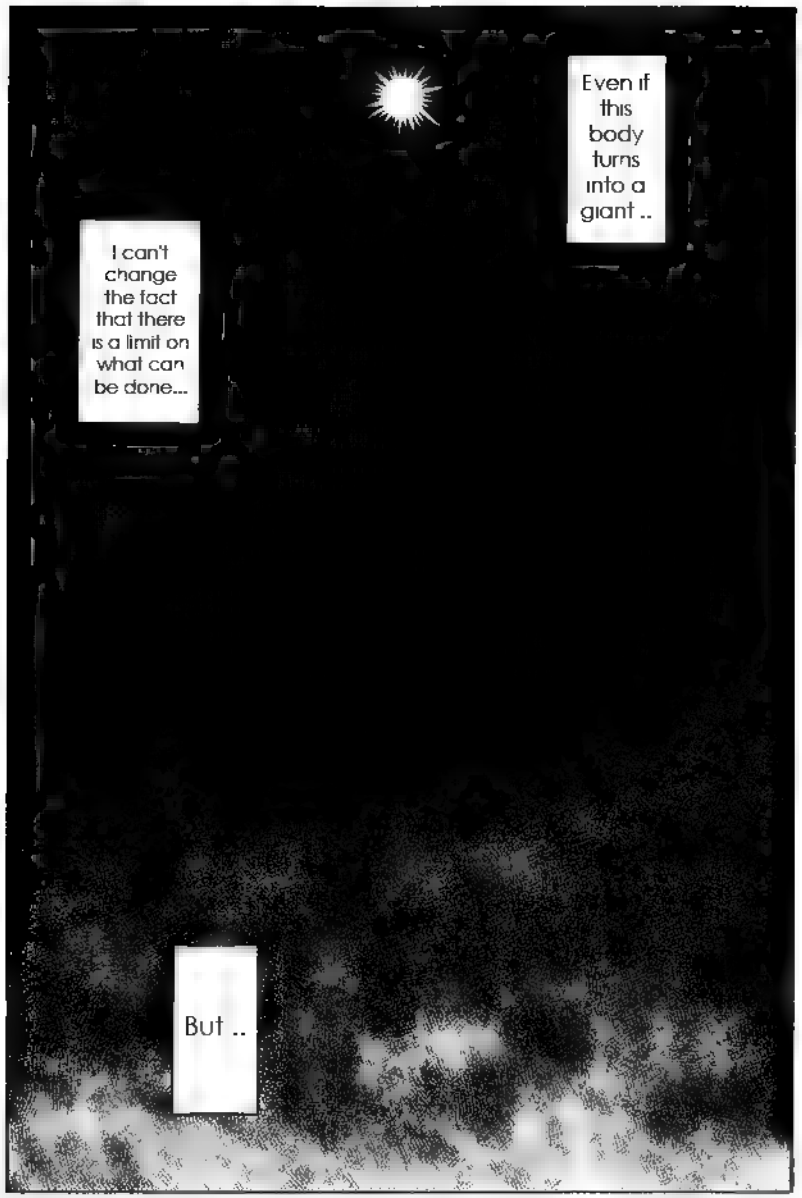
Disappear!! Forever from the earth!!
It's a pity, but time's up.
Huh?
What's that?
!?
The cells in part of his body are changing position..

But this giant body has thousands of Zoanoids "fused" within.
It is true that if you hadn't grown in size this would not have happened.
I used that as an opening to invade!
But that is far enough!!
You dirty insect infecting my body, how dare you
Huh!?
I will absorb you into my body with "Fusion Assimilation"!
SFX: B'kikiki

When did you?
No, this is impossible!
Y...you are Aptom!?
Oh... Are you surprised, you shitty old fart!!
Someone like you cannot possibly "absorb"...
A Zoalord's body is protected by the Zoa Crystal!

Did you forget one important factor?
So the Gigantic on the ground can counterattack the Draglord...
Slowing down the launching of "Wales Purgatorium"
Hehehe... that is...
You are now fused with the Draglord!
What?
Absolutely won't be able to shoot me... that's what!
That coward, "Sho Fukamachi"...

The "Aptom Territory" in Draglord's body is
Getting smaller?
Hehehe... Aptom...
I have already seen your ulterior motive!
SFX. Bikiki
I won't be able to endure much longer. .
As expected, this "Fusion Assimilation" has over whelming power .
SFX Kukikiki



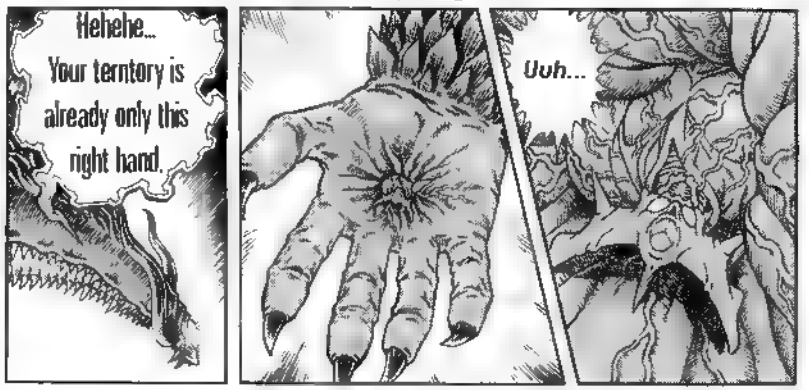
Even if this body turns into a giant ..
I can't change the fact that there is a limit on what can be done...
But ..

I've bought you time. .
The rest is up to you
.....

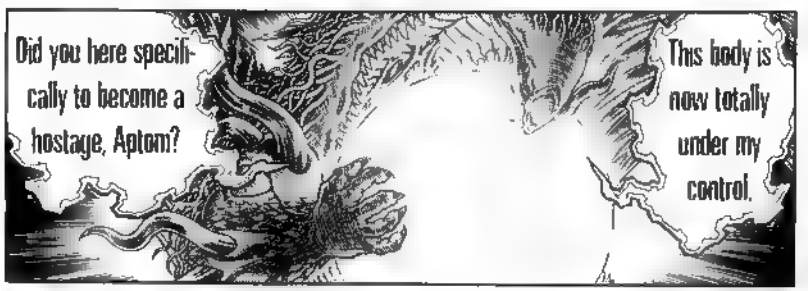
Do you understand Sho?

Aptom ..!!

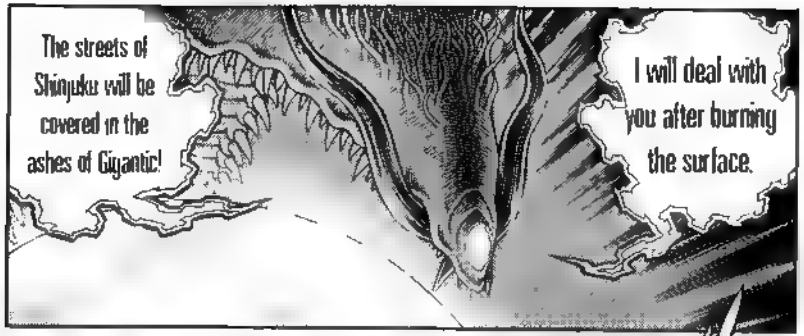
SFX Gyuun gyuJn



Hehehe... Your territory is already only this right hand.
Uuh...



Did you here specifically to become a hostage, Aptom?
This body is now totally under my control.



The streets of Shinjuku will be covered in the ashes of Gigantic!
I will deal with you after burning the surface.

Gigantic XD (Exceed)

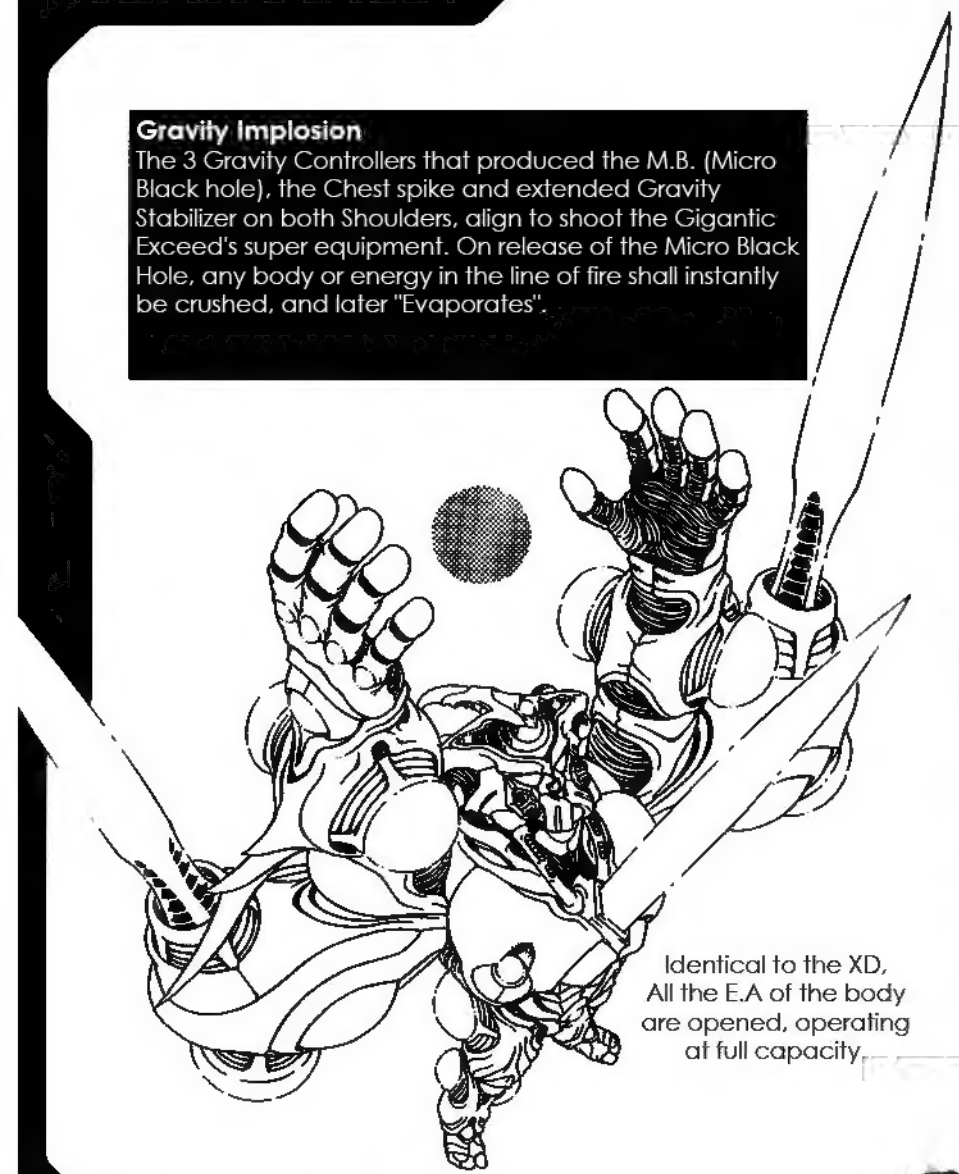
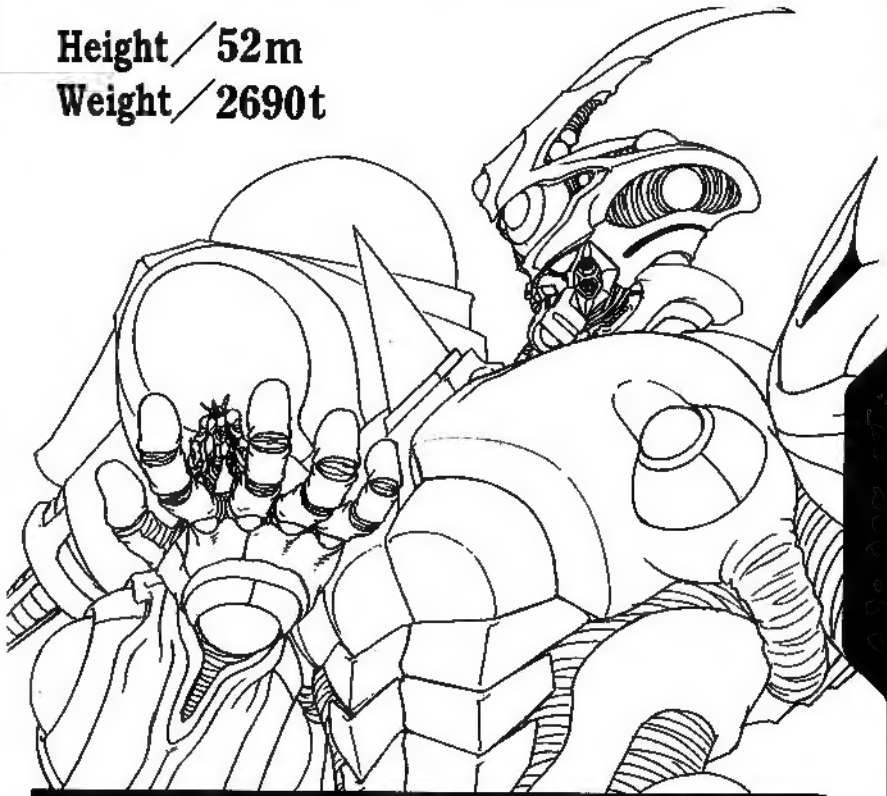
Gravity Implosion
The 3 Gravity Controllers that produced the M.B. (Micro Black hole), the Chest spike and extended Gravity Stabilizer on both Shoulders, align to shoot the Gigantic Exceed's super equipment. On release of the Micro Black Hole, any body or energy in the line of fire shall instantly be crushed, and later "Evaporates".



Identical to the XD, All the E.A of the body are opened, operating at full capacity.



Sho Fukamachi, who has awakened the "One who has the power to enlarge", uncovered the form of the true power of the Gigantic. In order to maintain the giant, the 3 Gravity Controllers and the Energy Amps on the whole body usually operate at full, drawing out energy from another dimension continually supplying amplified energy. The abilities of the Guyver Gigantic, everything can be used in this form. the destructive power of the weapons have also been given a power up based on it's size.

DRAGLORD CABLARL

Giant Beast God Annihilation Form (Draglord Annihilation Mode)

Involving thousands of Zoanoids, extending the giant wings is the Draglord's final form. The gooseneck breaks open into 3 parts to open a huge jaw, the "Light Ball" in the centre expanding to its limit. Draglord's upper half encircles its largest, evilest super particle cannon "Wales Purgatorium". It's destructive power is equal to the power of the Gigantic's Giga Smasher.

Height／82m
Weight／6720t

Height／153cm Weight／97kg

Kabral Escape Mode
At the point where Gigantic XD's attack destroyed him, a dorsal missile was created to become an escape for Kabral's body. All direct attacks use the "Pseudo brain" to supply the implanted creatures and assimilated body's abilities.
This body has no battle capability whatsoever. It's only special ability, is to be able to turn any creature that it touches into "stone". Because it requires direct contact for direct attacks, it's effectiveness is extremely low as long the enemy is aware.

Dorsal Missle
Draglord's dorsal fins change into a large, strong explosive missiles. It has the ability to drill into a Zoaform or Gigantic's barrier and explode.

After inheriting the body of Hayami Toshiaki, Aptom has evolved into his newest form.
Under the control of Kabral Khan as "Evil Aptom", he has absorbed a number of Hyper Zoanoids weapons, getting the ability of "Biofreezer Hayami", a screen "Stealth ability" that can cover his own body in transparency, a "Molecular accelerator" in his arm block, extending from his upper arms a "High Frequency Lancer", and also Hayami's strong freezing attack " Catastrophic Freezing".
